Application/Control Number: 10/693,474

Art Unit: 1761

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1, 3 and 7-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Watanabe as further evidenced by Lowe and Schwartzberg for reasons of record.

Applicant argues that Watanabe does not appreciate the mouth feel benefits of excluding carbohydrate. But Watanabe does not use carbohydrate in his composition. Applicant refers to claims 14 and 25, which are not rejected over Watanabe. Applicants' arguments relating to the type of emulsion were discussed in the last office action. The fact that Watanabe does not identify the emulsion does not alter examiner's opinion that the Watanabe emulsion appears to be oil in water emulsion.

It is appreciated that the fiber size is not mentioned in Watanabe but one of ordinary skill in the art would be able to adjust the bran fibers to an optimum size to achieve a desired mouth feel.

Claims 1, 3, 7-11, 13, 14, 16-18 and 20-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hercules alone or in view of

Art Unit: 1761

Fischer and as further evidenced by Lowe and also Schwartzberg for reasons of record.

Applicant argues that high levels of sugar and starch are required in Hercules. This is disagreed with because at column 6, lines 50-53, the ranges of sugar and carbohydrate contemplated are as low as 0%. Applicant argues mouth feel but no difference is seen between the mouth feel of the claims the mouth feel of Hercules. No difference is seen from the dissipation of the product in the mouth of the claimed product and the dissipation of the product in the mouth of the Hercules product. Applicants' arguments relating to Fischer has been considered but is not persuasive. If one of ordinary skill in the art were looking to enhance the thickness of his salad dressing, it would have been obvious to look to an additive with viscosity enhancing properties. Fischer clearly teaches the application of his fiber "where viscosity enhancement or thickening are acceptable as a side effect of dietary fiber fortification". The fact that salad dressing was not mentioned in Fischer does not prohibit or teach away form a dietary fiber application to salad dressing.

Application/Control Number: 10/693,474

Art Unit: 1761

It is appreciated that the fiber size is not mentioned in Watanabe but one of ordinary skill in the art would be able to adjust the bran fiber to an optimum size to achieve a desired mouth-feel.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carolyn A Paden whose telephone number is (571) 272-1403. The examiner can normally be reached on Monday to Friday from 7 am to 3:30 pm.
